Bachelor of Arts

**John Copley** has extensive professional experience in site planning, design, and implementation of projects throughout New England. He has been responsible for such diverse, engaging, and award-winning historic streetscapes and urban design projects as the **Frog Pond Renovation** on Boston Common, **20/21 Custom House Street**, **390 Commonwealth Avenue**, and **Lotus Development Corporation**. These projects required sensitive design and detailing consistent with their respective historical context, yet are also contemporary in their expression of traditional materials. John's notable streetscape design and downtown revitalization experience comprises many completed projects, and includes **Stacy Boulevard Waterfront Park**, **Elliot Norton Park**, and **Dudley Town Common**. His responsibilities encompass all aspects of community participation, office management, project management, and design and construction observation. John is also actively involved in public planning and design charrettes dealing with affordable housing and small town planning. John's recent projects include two projects for the **First Church of Christ, Scientist** in Boston, MA including a Fountain Rehabilitation for increased child safety as well as a movable stage setting for the Church's Summer "Soulstice" Program. Additionally, John recently completed a **Downtown Master Plan** for the Chamber of Commerce in Hopkinton, MA and is also involved in the development of the **Sanctuary Golf and Country Club** in that community as well. John is serving as the co-Principal in Charge on the **Central Artery/Tunnel Surface Restoration** project in downtown Boston, MA, the **World Learning Center Master Plan** in Brattleboro, VT, and the **Regatta Club and Ocean Cliff Resort** in Newport, RI. John will act as a key team member on the upcoming **Central Artery/Tunnel Wharf District Parks** project in downtown Boston, MA.
